Todo list component mapping

Can you map on how will add a component for the todo list for the following component?

 www.figma.com/design/ilWfLriW...

 Agent  Auto 

High-level mapping from Figma to a Todo component

PROS:

- It's fast. Just copy the component link
- No setup required
- Good for making MVP
- Flexible prompting

PROS:

- It's fast. Just copy the component link
- No setup required
- Good for making MVP
- Flexible prompting

CONS

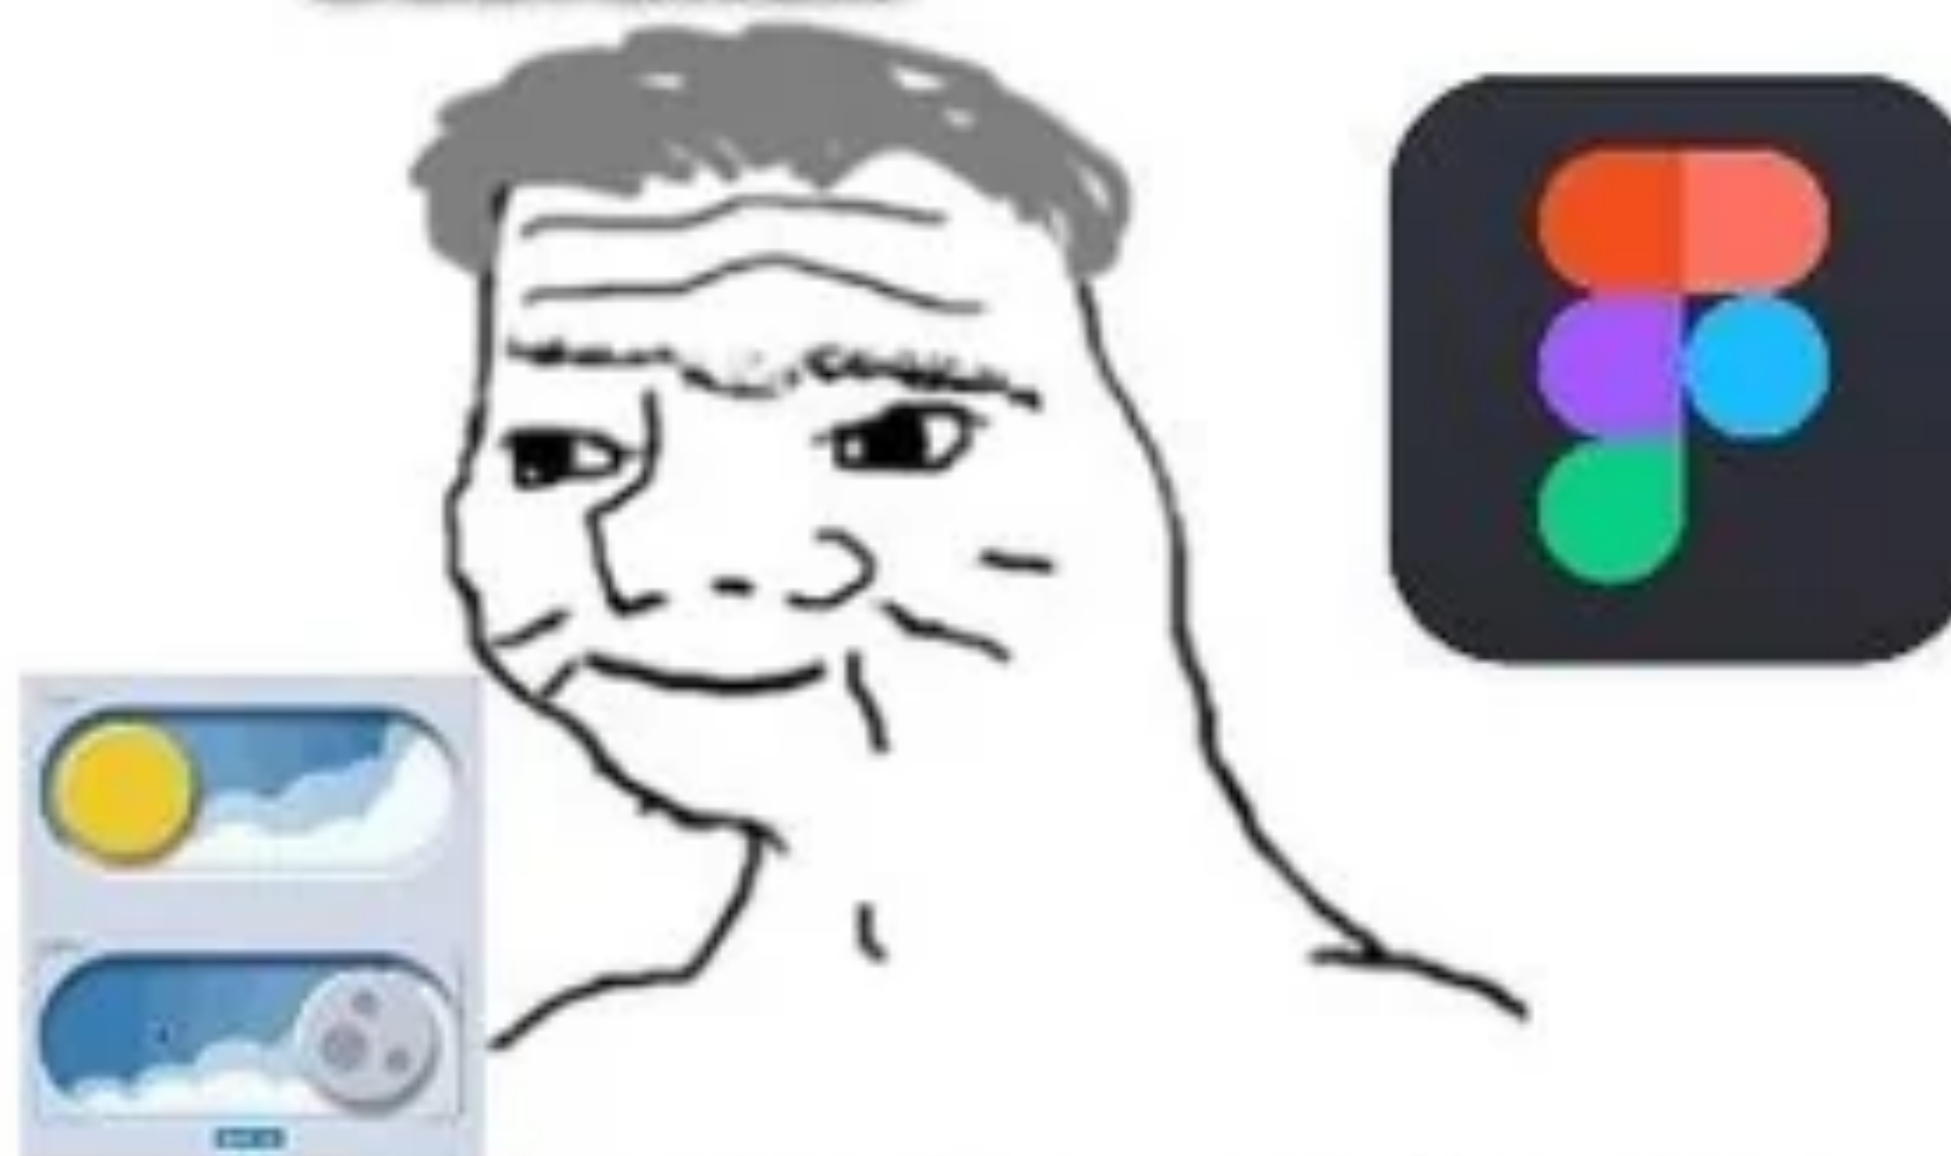

- Possible Layout Problems
- Usage of Absolute Values
- Not for complex structures

DEVELOPER

**NOOOO YOU CAN'T JUST
ROUND CORNERS AND ADD
DROP SHADOW LIKE THAT. NOOOO**

DESIGNER

**HAHA FIGMA
GOES BRRRRRRR**

Level 2: Developers With Fixed Design

Prerequisite: Access to cursor and Figma / Plus some plugins

Level 3:

Large team of designers and developers

Prerequisite:

1. Access to Cursor and Figma
2. Figma Develop Mode Access

Common Problem:
Design <> Code Conversion Time

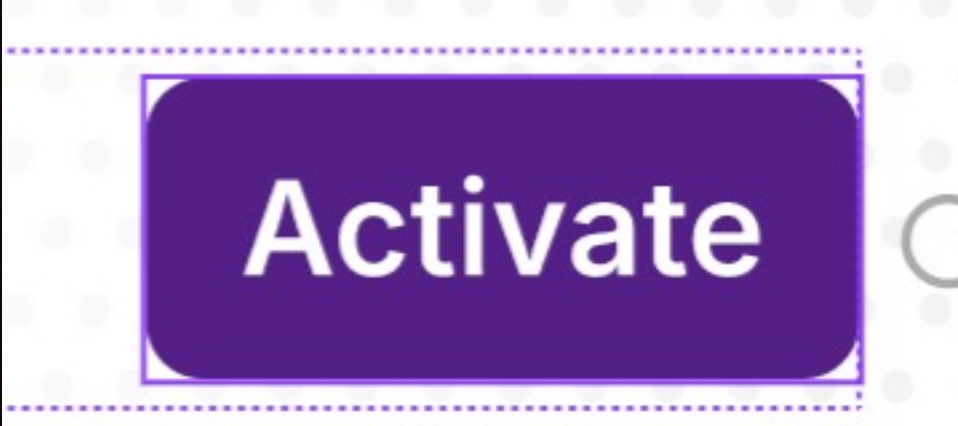

Figma Code Connect

Bridge between your codebase and Figma's Dev Mode

UI Components 🤝 Figma Components

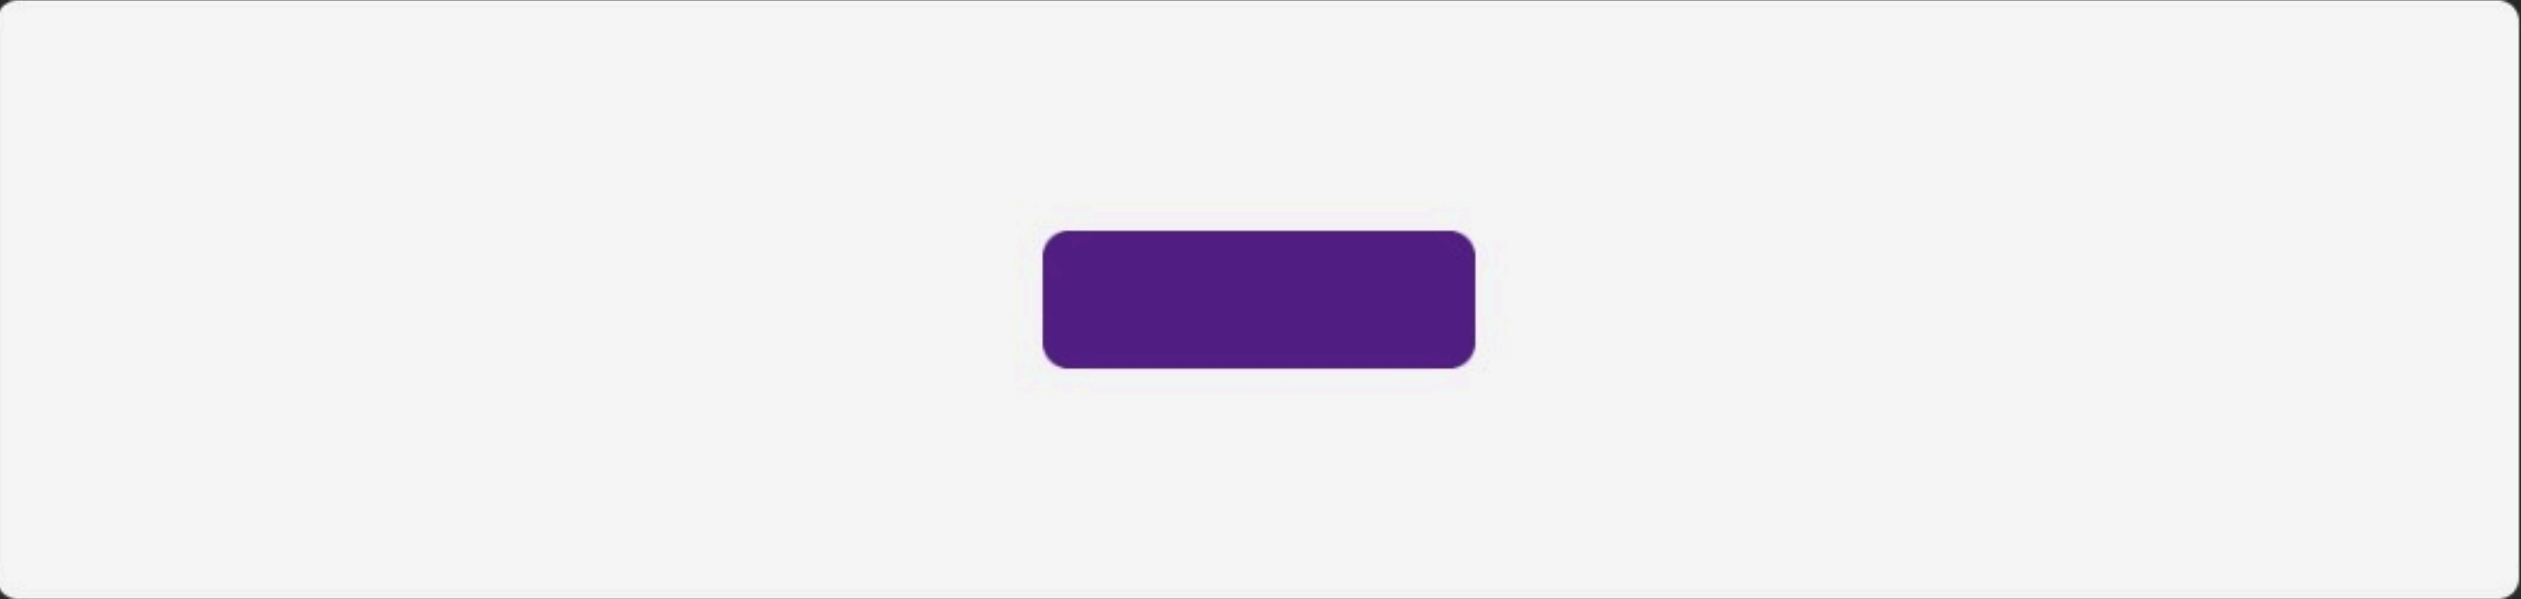

What do you require?

1. Figma Dev Mode enabled
2. Code Connect CLI - in your project
3. Access to the project repository where UI components live
4. A Figma design system with components to map to code
5. **Component mappings configured** between Figma components and code components

Component information
